

POWERHOUSE BENCH

SPECIAL FEATURES:

- Molded nylon guards protect Olympic bars from damage, reduce noise and provide rest for safety spotters.
- Flat, incline and shoulder press all can be performed with simple adjustments while you seated.
- Seat automatically moved into proper position when back pad is adjusted from 0 degrees to 72 degrees.
- 15 linear back-forth adjustments to accommodate varying users.
- Bench could be pushed inside the machine and performed as squat rack.
- Safety spotters can be positioned at optimum height.
- Open frame design with elevated platform for effective and safe spotting.
- Barbell, safety spotter and weight plate storage.
- Landmine, band pegs and battle rope kits.
