

DEFINITION VERTICAL KNEE RAISE

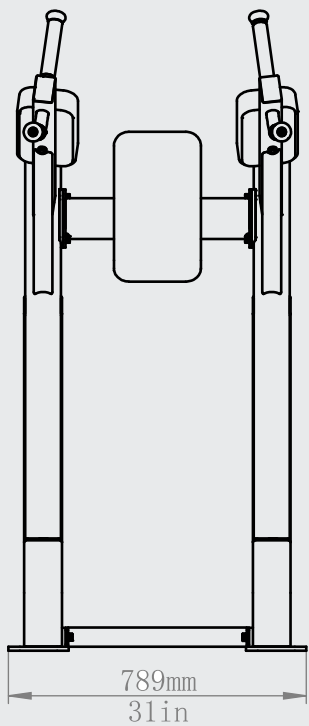

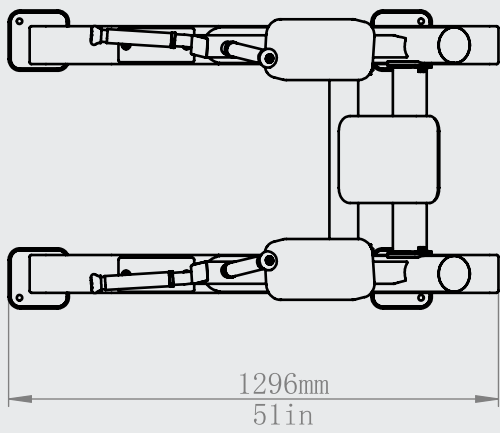

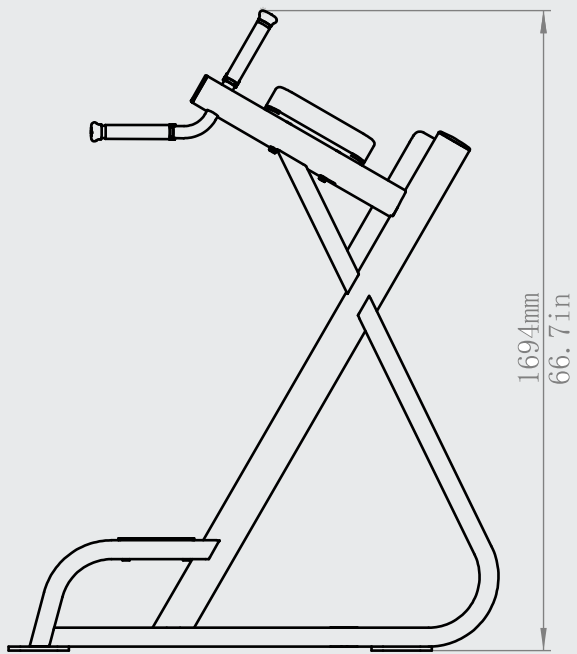

The DEFINITION series is specifically designed for large commercial gyms and personal training studios, featuring extensive functionality, professional-grade scientific design, and high safety standards.

The DEFINITION VERTICAL KNEE RAISE is ergonomically designed to ensure body stability and maximize safety during training. Constructed with a combination of rectangular tubes (1.97×3.94×0.1 in) and round tubes (φ3.7×0.1 in), it provides exceptional structural integrity and safety for intense training sessions.

PRODUCT WEIGHT:165 lbs
MAXIMUM LOAD:331 lbs
DIMENSIONS:Length: 51 inches Width: 31 inches Height: 66.7 inches

Ergonomic Arm Pads:
Designed to provide better alignment with arm and muscle contours, offering an enhanced and user-friendly experience.

Dual-Function Handle Design:
Allows easy transition between parallel bar dips and vertical leg/knee raises.
