

ASSISTED CHIN UP / DIP STATION

The DEFINITION GYMS series is specifically designed for large commercial fitness clubs, characterized by its sturdy durability, biomechanical structure, comprehensive functionality, and high safety standards. This series offers equipment that is not only built to last but also designed in accordance with human biomechanics, ensuring exercises are performed in the most natural and effective way.

ASSISTED CHIN UP / DIP STATION

This station is equipped with a pull-up bar, dip bars, and a knee raise station, and can also be used with counterweights for assisted exercise movements. It primarily targets muscles such as the trapezius, deltoids, pectorals, latissimus dorsi, biceps, rectus abdominis, and obliques. Made with standard commercial-grade tubing (1.6inx5.5inx 1in square combined with 2inx4inx1in flat oval tubes), it ensures a safe workout environment. Product weight: 390 lbs; Standard weight stack: 220 lbs; Total product weight: 610 lbs.
