

SEATED LEG PRESS / CALF RAISE MACHINE

The DEFINITION GYMS series is specifically designed for large commercial fitness clubs, characterized by its sturdy durability, biomechanical structure, comprehensive functionality, and high safety standards. This series offers equipment that is not only built to last but also designed in accordance with human biomechanics, ensuring exercises are performed in the most natural and effective way.

SEATED LEG PRESS / CALF RAISE MACHINE

This machine features an arc motion path that aligns perfectly with the principles of kinesiology, ensuring a safe, scientific, and comfortable workout. It primarily targets the quadriceps and gluteus maximus. The machine is built with standard commercial-grade materials (1.6inx5.5inx1in square tubing combined with 2inx4inx1in flat oval tubing), weighing in at 370 lbs with a standard weight stack of 220 lbs, bringing the total weight to 590 lbs.

Anti-slip rubber platform.

Backpad with pull-pin adjustment for easy one-handed operation.
